Did you miss KinetaCore's latest webinar? Register to listen to the recording.

It's Not Always the Muscle's Fault: Neuropathy in Sports Injury and How to Manage with Functional Dry Needling®

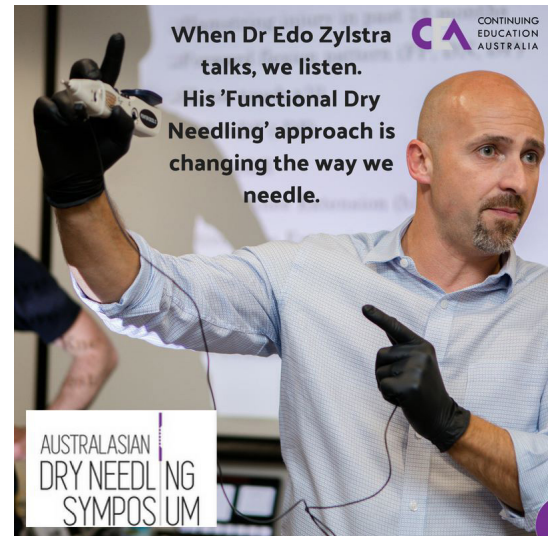

Join Dr. Edo Zylstra and Dr. Paul Killoren as they discuss the familiar topic of soft tissue sports injury through the less familiar lens of neuropathic evaluation and management. They will examine how the initial injury and healing ultimately impacts the overall life of the associated neural components. This webinar will dive into the underlying neurologic aspects of athletes in regards to injury prevention and rehabilitation that will help you to improve your patient outcomes.

CEA Presents: Australasian Dry Needling Symposium

KinetaCore founder and CEO, Edo Zylstra, had the opportunity to share Functional Dry Needling® at Continuing Education Australia's Australasian Dry Needling

Symposium on July 21-22 in Melbourne, Australia. The symposium brought together the current leaders in clinical application, research, and education on the topic of dry needling.

Clinical Pearl Highlights

Physical Therapy and a Bike Fit – Back on the Saddle and Riding Pain-Free

By: Kristi Mason

“Many cyclists here on the East Coast have just finished the Pan-Mass Challenge, riding up to 192 miles to help raise money for life-saving cancer research.”

Upcoming ISPI Webinar

Preoperative Pain Neuroscience Education

Preoperative education has shown some effect in altering anxiety, stress and fear associated with surgery. A newly designed preoperative pain neuroscience education (PNE) program has been developed and tested with various surgeries and has shown immediate improvements in fear-avoidance, pain catastrophization, pain knowledge, and more. Join Dr. Adriaan Louw as he discusses this new PNE program and its application in the clinic.

Date: October 10

Time: 8:00pm ET

Price: Free
